

OPADRY[®] EZ

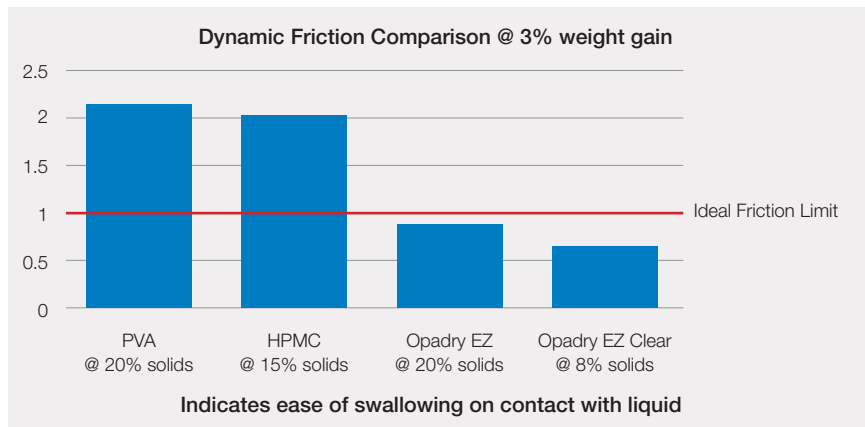

Easy Swallow Film Coating System

Choosing the Path of Least Resistance

From Core to Coating, Your Supplier of Choice™

Opadry® EZ, easy swallow coatings, is a scientific breakthrough that dramatically improves tablet mobility, reducing the probability of sticking in the throat or esophagus. When compared to other film coatings, once wet, the reduced friction on the surface of an Opadry EZ coated tablet results in better slip. The improved tablet flow, combined with a glossy finish for added elegance, encourages better patient compliance and consumer appeal.

Make Uncoated Tablets Easy to Swallow

- Add brand appeal and slip to uncoated tablets with Opadry EZ pigmented coating
- A clear top-coat further enhances gloss and improves aesthetic appearance

Improve Slip of Currently Coated Products

- Simple addition of Opadry EZ clear adds value through better patient experience

Gain Efficiency with Fully Formulated, Optimized Formulas

- Ingredients meet both functional and regulatory needs and are USP-NF, EP & JP compliant
- Ready to coat in 45 minutes

Pay close attention to physical attributes such as shape, size and coating to improve your market share and regulatory acceptance by consulting with Colorcon's BEST® tablet design team.

Deliver High Performance Products - with Colorcon

Choose Colorcon, leader in pharmaceutical solid oral dose solutions, as a formulation partner of choice in every phase of your product development.

Film Coatings:

- Optimized formulations specifically for your application and regulatory needs including customized colors and color matching
- Innovative products for mechanical integrity, gloss, pearlescence and environmental protection
- Brand enhancement concepts, consulting and services to build a strong brand image and stand out from the competition.

Formulation Technologies:

- Full range of functional excipients
- Technologies for development and production of delayed/enteric release and extended/controlled release tablets and multiparticulates
- HyperStart® service and extensive applications data to provide starting formulations to save you development time and cost
- Extensive formulation know-how and technical support to achieve the exact drug release profile desired.
