

NEWS RELEASE

Colorcon, Inc. Expands Functional Film Coatings through the Controlled Release (CR) Alliance with DuPont.

Harleysville, Pennsylvania, USA, 15th April 2019, Colorcon, Inc. is pleased to announce that DuPont Nutrition & Biosciences, a business unit of DowDuPont Specialty Products Division, has agreed to enhance the current portfolio of CR Alliance products distributed by Colorcon by adding the Aquacoat® range of modified release products. Since 2007, the Alliance has served the needs of the pharmaceutical industry, providing customized solutions, products and support services for pharmaceutical product development. The addition of the Aquacoat® products into the Alliance portfolio demonstrates the continued strong relationship between Colorcon and DuPont and enhances the range of solutions provided to meet industry needs.

The Aquacoat product line includes **Aquacoat® ECD for sustained release** and **Aquacoat® CPD for enteric coating applications**. These aqueous functional coatings are designed for use in both pharmaceutical and nutritional solid dose applications. They provide modified release drug profiles with the added benefit of global regulatory acceptance.

Jayesh Parmar, General Manager at Colorcon says “The addition of these products further augments the Alliance’s ability to fulfill the needs of the pharmaceutical industry and provide unique solutions to deliver efficiency, cost savings, and dependable performance.”

Martti Hedman, CEO adds “Colorcon and DuPont, together through the Alliance, continue to deliver increased value and innovative solutions for our pharmaceutical customers. The addition of new products strengthens the global relationship and enhances our market leadership position.”

Colorcon’s global reach and unmatched technical support enables the expansion of these coating technologies to a wider base of customers around the world.

“We want to ensure that our customers receive the highest possible levels of service,” adds Pael Fokin, Global Commercial Director, Pharma Solutions, DuPont. “This move provides a one-stop shop for their controlled release application needs and demonstrates our continued commitment to the Controlled Release Alliance with Colorcon.”

Aquacoat® is a registered trademark of DuPont or its affiliates.

Company Information

Colorcon is a world leader in the development, supply and technical support of specialty ingredients; formulated film coating systems, modified release technologies, and functional excipients for the pharmaceutical industry. Our best-in-class products and technologies are complemented by our extensive application data and value-added services to support all phases of solid oral dose design, development and manufacture. Our focus on market issues and technology development has earned Colorcon an international reputation as a pharmaceutical supplier of choice. That reputation is based on superior product quality, unparalleled technical support, extensive regulatory assistance and reliable supply from multiple locations. Colorcon has 11 manufacturing facilities, 21 technical service laboratories globally and more than 1200 employees exclusively dedicated to its customer base.
