

# Colorcon Academy<sup>®</sup>

Continuing Education in Oral  
Solid Dosage Development

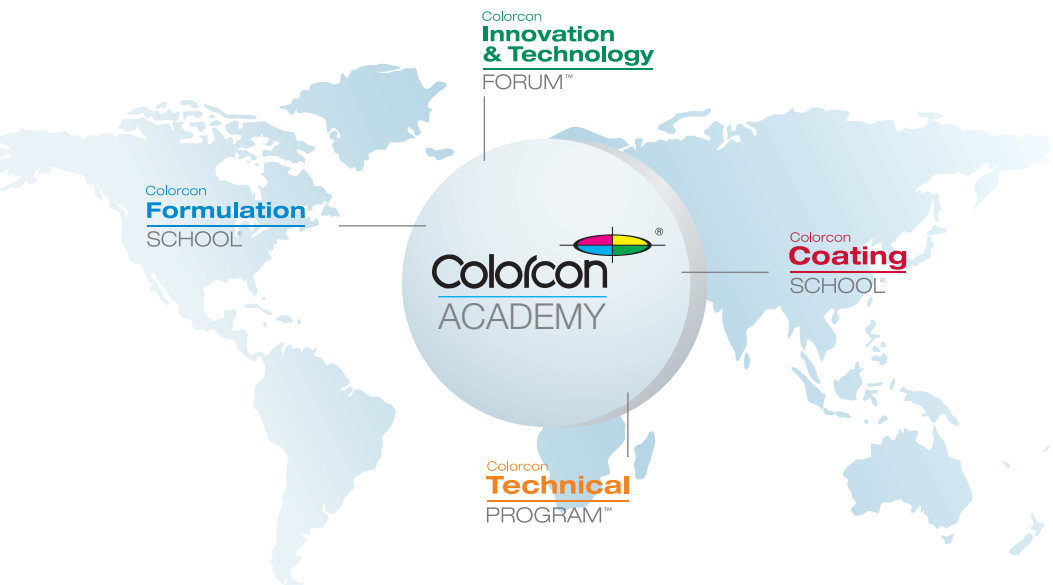

From Core to Coating, Your Supplier of Choice<sup>®</sup>

# Professional Development

We've connected our highly valued educational programs under an exciting new entity to advance our global standard in education. Aligned with your business needs, the recently established Colorcon Academy offers a series of professional programs developed to increase your technical knowledge and regulatory understanding in the areas of film coating, core formulation, excipient selection and controlled release of solid dosage forms.

## Educational Programs

Held at Colorcon's conveniently located 21 technical facilities worldwide, each program provides an excellent opportunity to augment your learning close to home, with interactive sessions using a range of laboratory and production scale equipment. Or, personalized seminars to meet your company's specific requirements are offered on site at your location. This provides an essential and cost-effective targeted training resource for your organization.

## Learning Outcomes

Pharmaceutical professionals advancing through the Colorcon Academy program will gain a deeper knowledge of process capability film coating, core formulation, excipient selection and controlled release of oral solid dosage forms.

### Coating, Core Formulation, and Process Development

Broaden your understanding to ensure efficient outcomes and reduce your development time for your projects.

### Process Efficiency Improvement

Optimize product manufacturing through robust formulation and more efficient processing while you gain insights to meet regulatory compliance.

### Product Life-Cycle Management

Uncover how to choose the right delivery platform to modulate drug release profiles.

### Scale-up and Risk Reduction

Improve scale-up for production transfers to ensure the highest quality finished product.

# Continue Your Education with

You have the opportunity to progress through the full series of open event sessions, or Colorcon can organize on-site programs designed to meet specific learning objectives and requirements of your organization. For a complete list of Academy programs and information on how to become a member of the community, visit: <https://www.colorcon.com/resource-center/colorcon-academy>

***“The Academy program is helping support my professional advancement”***

***– Senior Research Scientist***

***“Especially benefited from hands-on with the equipment - helped solidify concepts and ideas to improve our process”***

***– Process Engineer***

***“Great sessions for comparison of different excipient properties and formulation selection”***

***– Team Leader, Technology Transfer***
