

From Core to Coating, Your Supplier of Choice[®]

Why Choose Colorcon?

Colorcon has a firm commitment to providing best-in-class pharmaceutical products and services to support all phases of solid dose design and development, along with superior technical support dedicated to meeting our customers' needs.

*The right business partner
provides long-term value.*

Key Pillars for Customer Success

Reduce Time to Market

We support you in the development and production of highly effective formulations in reduced time frames through our extensive technical support and lab capabilities.

Quality and Regulatory

With our commitment to regulatory and quality support, we give you, the customer, peace of mind that you are in the right hands.

Lower Total Cost

Efficient production with high performance excipients and coatings. Technology transfer and process troubleshooting.

Global Partner

Business Continuity (BCP) security for both global and local needs, and fast access points to our customer support teams in 21 locations worldwide.

Platform Solutions

Patient Adherence

Industry Trend:

Reduce medication errors and improve patient adherence.

Solution:

- Patient centric design to reduce pill burden through modified release dosages
- Improve adherence with easier to handle and swallow dosages: innovative shape, color, finish
- Easy to apply taste-masking solutions

Dissolution Design

Industry Trend:

Life cycle management through modified delivery profiles and product line extensions.

Solution:

- HyperStart® formulation service for immediate and modified release profiles
- Locally available specialists and applications expertise for fast formulation development

Productivity

Industry Trend:

Lower total cost and reduce time to market.

Solution:

- HyperStart® to reduce development time
- Regulatory support for timely submissions
- Process improvement to streamline manufacturing

Stability

Industry Trend:

Stable and consistent product performance.

Solution:

- Select right excipients to support stability
- Use film coating to reduce overcomplex packaging
- Improve quality and reduce batch failure

Product Authentication

Industry Trend:

Track and trace.

Solution:

- Direct on-dosage authentication: in field and forensic
- Covert & Overt technologies
- Shape, color and finish are also first line for recognition

Colorcon helps you find the right solution for your development and production needs.
