

Controlled Release Technologies for **Streamlined Development and Manufacturability**

Reliable, innovation-driven solutions that prioritize **boosting productivity** and **enhancing manufacturing efficiency** in the pharmaceutical sector.

At Colorcon, we lead the way in controlled release technologies, bringing unique solutions with precision and reliability.

With over six decades of innovation, our unwavering commitment to pharmaceutical excellence empowers companies to accelerate pharmaceutical product development efforts, optimize drug delivery, drive manufacturing efficiency and achieve success through our cutting-edge solutions.

From Core to Coating we provide unique formulated systems that are ready-to-use with the precision and reliability that Colorcon is world renowned for.

Transforming Innovation into Solutions

Deliver high-performance products with Colorcon

Film Coatings

Optimized formulations to design a unique tablet brand and meet regulatory requirements with customized colors. Innovative coatings for mechanical integrity, gloss finish, and environmental protection.

Controlled Release Systems

Eliminate the complexity of drug product development and manufacturing through innovative controlled release formulated systems.

Specialty Excipients

Functional excipients designed for manufacturability and supported by comprehensive application data to streamline development and achieve robust final products.

Functional Packaging

Colorcon is a leading specialist in providing controlled atmosphere packaging with in-depth knowledge of moisture, oxygen and odor management for healthcare packaging.

With global technical support, unparalleled quality and regulatory expertise, and reliable supply, Colorcon is your trusted partner in controlled release to help you to streamline complex processes and achieve success.
